Here is an exciting way to stimulate learning in children. The use of flash cards is a learning technique that has proved to be popular and effective, particularly among preschool children.

The flash cards have been specially designed in a handy size, suitable for little fingers. The attractive pictures are a visual treat.

Using look and say methods and matching techniques, these flash cards teach basic concepts like colours, shapes, number and the alphabet. Even popular nursery rhymes can be taught using flash cards, by encouraging repetition of the rhymes and matching words with pictures.

Once Children have mastered the concepts, flash cards can be used to play games that

will provide hours of fun !
