装帧:Hardcover

isbn:9780199296491

Debate about the authorship of the manuscript known to us as *De Doctrina Christiana* has bedevilled Milton studies over recent years. In this book four leading scholars give an account of the research project that demonstrated its Miltonic provenance beyond reasonable doubt. But the authors do much more besides, locating Milton's systematic theology in its broader European context, picking open the stages and processes of its composition, and analysing its Latinity.
