"Probably the most powerful work of imagination ever written"

Arthur C. Clarke

作者介绍:

William Olaf Stapledon was born in 1886 and educated at Abbotsholme School, Balliol College, Oxford, and Liverpool University. After spending eighteen months with a shipping office in Liverpool and Port Said, he lectured extramurally for Liverpool University in English literature and industrial history. He served in France with the Friend's Ambulance Unit from 1915 to 1919. He subsequently lectured again, extramurally, for Liverpool University, in psychology and philosophy. He died in 1950. His books include Last and First Men (1930), A Modern Theory of Ethics, Odd John (1936), Sirius (1944), and A Man Divided (1950).

## 评论

果然大手笔，每一页都可以扩展成长篇，后世某些大家原来都是借鉴他的

-----  
后世很多物理思想, 单从图景上说, 被这部小说超前了二三十年.

-----  
中文译本《造星主》/1937

-----  
(我看的是字节社的中文版) 除去科幻，很多内容都是作者的…心灵之旅什么的，还行
