著者:Glen Arnold

出版者:Financial Times/ Prentice Hall

出版时间:2004-4-22

装帧:Paperback

isbn:9780273663096

From bestselling author Glen Arnold, this is a jargon-busting book that describes how financial markets work, where they are located and how they impact on everyday life. It assumes no specialised prior knowledge of finance theory and provides an authoritative and comprehensive run-down of the workings of the modern financial system.

Using real world examples from media such as the Financial Times, Arnold gives an international perspective on the financial markets with frequent comparisons in the workings of major financial centres such as the Bank of England and the City, the Federal Reserve System and Wall Street, the Japanese Central Bank, the European Central Bank and IMF and World Bank.

### 作者介绍:

Glen Arnold is a businessman, investor and a professor of investment at Salford University. He's the author of numerous finance and investing books including Corporate Financial Management, The Handbook of Corporate Finance, The Financial Times Guide to Investing and The Great Investors, all published by Financial Times-Prentice Hall.
