Meet the men, women, and children of the world's vanishing indigenous tribes...as you've never seen them before. Acclaimed Japanese photographer Hibiki Kobayashi's exceedingly rich, huge tritone portraits of the wanderers, the lost ones, the refugees, and the exiled are boldly presented by the renowned art director Fabien Baron.

In the spirit of Avedon's classic In The American West, Kobayashi photographs his subjects against a stark white background to reveal in striking detail the tribes' adornments, clothes, postures, and, ultimately, their sublime identities. Baron's audacious full-page bleeds and "Tribe's" gigantic trim size envelop the viewer with more than one hundred images taken in the remotest regions of Asia, the Middle East, Africa, South America, and the Pacific Rim.
