Written for a broad audience, this book provides a coherent reevaluation of Western ideas about China. It covers perceptions of China from the earliest times through the late 1980s and draws on a range of sources, including literature, journalism, and the arts, to show how changing power relations have influenced Western ideas about China, its people and its history. The book describes in particular how China has served both as a model and as a threat for different schools of thought in the West.

澳爷爷的书。跟上课的内容居然一样。跟另外一本也差不多。是不是人一生写出一本一来不断地paraphrase就能赚很多很多钱?
