Poor Ellen. Her boyfriend is cheating on her? with her best friend. Her other (male) best friend is in love with her when he really shouldn't be. Her beauty queen sister is on a rampage. And her mom is having an affair with one of her teachers. At first, Ellen wants to climb into bed and never get out again. Then she decides she's not going to take all of this lying down. She's out for revenge - a very comic revenge - with some very unintended consequences.
