"The most neurotic personality in Manhattan", B.J. Rosenthal m narrator of the widely acclaimed Eighty-Sixed m continues his story of living in Plague City. After watching Aids sweep through the ranks of his friends and ex-tricks, B.J. himself now tests positive for the HIV virus, and it will take more than sarcasm and psychotherapy to survive. As Spontaneous Combustion explores B.J. s options, from AZT to Act-Up, it deepens its portrait of one of the most

resilient, funny and genuinely heroic protagonists in recent fiction.
