takc a walk in the Sutton Place area and you will find there is a magical mix: tiny village-like streets, juxtaposed with steel-&amed luxury co-ops, all suffused with a silver, river-side light. Five-story walk-ups mingle with tall apartment buildings, ictorian brownstones add zest to modernist concrete structures, and miniature parks humanize high-rise sky-

scrapers--all fascinating reminders of the dynamic forces that have helped shape this unique, ever-evolving neighborhood.
