For more than twenty years, Naomi Klein has been the foremost chronicler of the economic war waged on both people and planet—and an unapologetic champion of a sweeping environmental agenda with justice at its center. In lucid, elegant dispatches from the frontlines of contemporary natural disaster, she pens surging, indispensable essays for a wide public: prescient advisories and dire warnings of what future awaits us if we refuse to act, as well as hopeful glimpses of a far better future. *On Fire: The (Burning) Case for a Green New Deal* gathers for the first time more than a decade of her impassioned writing, and pairs it with new material on the staggeringly high stakes of our immediate political and economic choices.

These long-form essays show Klein at her most prophetic and philosophical, investigating the climate crisis not only as a profound political challenge but as a spiritual and imaginative one, as well. Delving into topics ranging from the clash between ecological time and our culture of “perpetual now,” to the soaring history of humans changing and evolving rapidly in the face of grave threats, to rising white supremacy and fortressed borders as a form of “climate barbarism,” this is a rousing call to action for a planet on the brink.

With reports spanning from the ghostly Great Barrier Reef, to the annual smoke-choked skies of the Pacific Northwest, to post-hurricane Puerto Rico, to a Vatican attempting an unprecedented “ecological conversion,” Klein makes the case that we will rise to the existential challenge of climate change only if we are willing to transform the systems that produced this crisis.

An expansive, far-ranging exploration that sees the battle for a greener world as indistinguishable from the fight for our lives, *On Fire* captures the burning urgency of the climate crisis, as well as the fiery energy of a rising political movement demanding a catalytic Green New Deal.

气候正义，刻不容缓！

最大认知上的转变是，气候变化其实与当下我们很关注的其它议题都十分紧密的联系着。可能是跟Naomi Klein本身经济、人权、劳工权的背景出身有关，从她的视角来看每个环境灾害的大事件，有种混沌中清醒的感觉。这本应该也是她写过的书里最私人的一本，就像气候危机这件事，本该是关乎每个个体很私人的事。讲Greta Thunberg的章节，她自己的章节，她5岁儿子的章节，都动容得想哭。Green New Deal并不完美，但这是目前最接近完美的政策，也刻不容缓。

“Honoring the death begins with telling the truth. And the truth is that there is nothing natural about this disaster. And if you believe in God, leave her out of this, too.”

green new deal now!
