isbn:9780812252071

This book is about the progress, migration, and impact of the Manchu written language. A key characteristic of Manchu is that it could be read by speakers of other languages without those speakers' ever hearing it spoken. This is a book in intellectual history, cultural history, and the history of language.

作者介绍:

Marten Soderblom Saarela is an assistant research fellow at the Institute of Modern History, Academia Sinica, Taiwan.
