What is the Green New Deal and how can we afford it?

To protect the future of life on earth, we need to do more than just reimagine the economy—we have to change everything. One of the seminal thinkers of the program that helped ignite the US Green New Deal campaign, Ann Pettifor explains how we can afford what we can do, and what we need to do, before it is too late.

The Case for the Green New Deal argues that economic change is wholly possible, based on the understanding that finance, the economy and the ecosystem are all tightly bound together. The GND demands total decarbonization and a commitment to an economy based on fairness and social justice. It proposes a radical new understanding of the international monetary system. Pettifor offers a roadmap for financial reform both nationally and globally, taking the economy back from the 1%. This is a radical, urgent manifesto that we must act on now.

## 评论

翻过，其实是本经济书。对经济不了解无法评价，但作者的主张值得支持：只有改变现在的金融系统才能保护环境，并且作者提出了详细的改变计划和蓝图，虽然觉得还是有点玄乎有点空吧，但我们需要支持GND的政治领袖来改变世界。。

-----  
可以反驳作者的地方有很多（比如她否定了这个那个行不通只有steady state才可以），但是我真的好欣赏她能这样捍卫自己的观点
