The finest new spaces, both commercial and residential, are featured in Spaces. Houses, buildings, offices, shops, and restaurants that are both aesthetically appealing and functional are showcased here, in full-color photographs with illuminating commentary from the architects, designers, and other professionals who created

them. These projects are all linked by the special emphasis the architects placed on meeting the needs of the client, while still creating distinctive, unusual spaces.

- * Full-color photographs of dozens of exciting projects
- * Commercial and residential designs
- * Emphasis on meeting the needs of the clients
