Increased flows of people, capital, and ideas across geographic borders raise urgent challenges to the existing terms and practices of politics. Comparative political theory seeks to devise new intellectual frames for addressing these challenges by questioning the canonical (that is, Euro-American) categories that have historically shaped inquiry in political theory and other disciplines. It does this by analyzing normative claims, discursive structures, and formations of power in and from all parts of the world. By looking to alternative bodies of thought and experience, as well as the terms we might use to critically examine them, comparative political theory encourages self-reflexivity about the premises of normative ideas and articulates new possibilities for political theory and practice.

The Oxford Handbook of Comparative Political Theory provides an entry point into this burgeoning field by both synthesizing and challenging the terms which motivate it. Over the course of five thematic sections and thirty-three chapters, this volume surveys the field and archives of comparative political theory, bringing the many approaches to the field into conversation for the first time. Sections address geographic location as a subject of political theorizing; how the past becomes a key site for staking political claims; the politics of translation and appropriation; the justification of political authority; and questions of disciplinary commitment and rules of knowledge. Ultimately, the handbook demonstrates how mainstream political theory can and must be enriched through attention to genuinely global, rather than parochially Euro-American, contributions to political thinking.

#### 作者介绍:

Edited by Leigh K. Jenco, Murad Idris, and Megan C. Thomas

Leigh K. Jenco is Professor of Political Theory at the London School of Economics and Political Science.

Murad Idris is Assistant Professor of Political Theory at the University of Virginia.

Megan C. Thomas is Associate Professor of Politics at the University of California, Santa Cruz.
