isbn:9780757003141

Best-selling authors and expert negotiators Gerard Nierenberg and Henry Calero have collaborated to put their working knowledge of body language into this practical guide to recognizing and understanding body movements. In this book you will find proven techniques for gaining control of negotiations, detecting lies, and recognizing signals of sexual attraction. By correctly reading body movements you will dramatically improve your understanding of others, giving you the advantage of added insight into all social and business situations.
