The special feature for the "New Concept" series is that the common words depicted in each picture on the cards are thematically linked by group, such as food, clothing,

animals, parts of the body, etc. or by the Chinese radical contained in each character. Students learn characters quickly by association. The size of each card is 4 1/4"x 5 3/4", larger than standard flash cards, so that the teacher can also use them in class.
