《儿童趣味中文1》主要内容：Easy Chinese for Kids is designed for elementary students with no Chinese background. It focuses first on listening and speaking, and then on reading and writing to effectively improve students' overall communication

skills. The introduction to Pinyin at the beginning of this book helps young children learn to pronounce and understand Chinese correctly. Ten lessons in the textbook, which can also be taught separately from the Pinyin lessons, teach students Chinese words on colors, numbers, family members, animals, shapes, food and drinks, telling time etc., while progressing to simple and practical dialogs. Each lesson has colorful images, new words and simple sentences. It is designed in accordance with LOTE (Languages Other Than English) Standards of various states. Please note the Pinyin lessons and textbook can be used independently or as a set.
