A major retrospective from the master of fantasy fine art Artist James C. Christensen's keen observation of humanity and endless supply of imagination have made him one of the world's most beloved artists. From his childhood in Culver City, California, to his professional career at Brigham Young University, Christensen has cast his perceptive eye on the world, translating it into engaging and inventive art. Men and Angels is the definitive retrospective on Christensen, who was at the forefront of the resurgence of fantasy-as-fine-art just as Tolkien merged literature and fantasy.
