isbn:9781416029649

An international group of experts brings you an exhaustive full-color two-volume reference on every aspect of vascular and non-vascular interventions to help you effectively treat a full spectrum of diseases. More than 1,600 examples of cutting-edge modalities such as MR, multislice CT, CT angiography, and ultrasonography highlight problem areas and show you exactly how to proceed. Each major entity includes full-color anatomic illustrations, drawn by a master illustrator, that illuminate key anatomic structures. User-friendly features including key points boxes, algorithms, protocols, and SIR practice guidelines help you avoid complications and put today's best practices at your fingertips.
