

Ophthalmology

[Ophthalmology_ 下载链接1_](#)

著者:Yanoff, Myron/ Duker, Jay S.

出版者:

出版时间:2008-12

装帧:

isbn:9780323043328

Based on valuable customer feedback, Doctors Yanoff and Duker have streamlined their best-selling reference, Ophthalmology, to zero in on just the clinical answers you need in day-to-day practice. They've removed most of the basic science and anatomy

information from the printed book and put it on the companion web site where it is easily accessible along with the entire contents of the book. This new edition presents unparalleled guidance on nearly every ophthalmic condition and procedure including the latest advances in the field, such as optical coherence tomography (OCT), the ocular surface, new pharmacologic therapies, updated oculoplastic surgical techniques, the latest in refractive surgery, and so much more. And, as an Expert Consult title, this meticulously updated 3rd edition comes with access to the complete contents online, fully searchable, plus additional basic science information.
