Continuing the tradition of its widely-praised previous editions, The World of the Cell, Seventh Edition , covers at the right depth and clarity– bioinformatics, bioenergetics, metabolism, enzyme kinetics, thermodynamics, membrane transport, cell signaling,

regulatory mechanisms, transcription and translation, signal transduction, and DNA replication and recombination. The new edition features information on Micro RNAs, other modern molecular techniques, and recent research advances without overwhelming students in detail. The World of the Cell's trademark features—art that teaches, Multi-level Problem Sets, and Concept Statements—have been augmented with new, time-saving study tools and “Mini-captions” for selected figures.

MyLab或是Mastering系列是在线作业系统。Access Code Card是在线作业系统的访问码，是老师和学生课堂之外网络互动及交流的平台，个人是无法使用这个平台的。请读者注意您购买的这个ISBN是不带Access Code Card的。
