Designer Sandy Foose has returned to her overflowing scrap bags and come up with a whole new collection of original designs. She offers more than

50 items to help you turn odds and ends of fabric into charming and useful things.

You'll find patterns and complete directions for making all the designs in this book, and most patterns are full-size.

Delight a child by stitching a Cuddle Lion Pillow, a Piggy Laundry Bag, or a small doll dressed in denim overalls and felt cowboy boots.

Grownups will welcome a set of colorful Puzzle Placemats, appliance covers embroidered with smiling kitten faces, and pincushions in the shape of fat pretzels or cactus plants.

For an extra-special gift (maybe for your own family), consider the patchwork Noel Banner. It's destined to become an heirloom.

Along with directions on how to reproduce each design exactly, Sandy explains how you can simplify and speed up some of

the work She also tells how to  
use part of a design (such as the  
little bird nestled in the Wall  
Lion s mane) and make it in  
quantity to sell at a bazaar.  
Sandy likes to work with  
fabric leftovers to create her  
designs, so if you re a scrap  
saver, you probably have  
enough fabric on hand to start
