Designer and needle artist Marti Michell brings her lifelong love affair with fabric to new heights with this collection of fun-filled craft projects. By mixing everyday scraps, novelty fabrics, and whimsical craft ideas with our favorite celebrations, she creates a

happy recipe for fabric crafting.

For birthdays, graduations, and other personal celebrations as well as national holidays, Marti shares her secrets for using fabric to create just the right look. All the projects are shown in large full color photographs, so you can see every charming detail.

Star-filled wall hangings and pillows, rag dolls, and no-sew fabric-covered boxes are among the treats for a Merry Christmas. The festivities continue with heart-shaped pillows for Valentine's Day and a clover-strewn wall hanging for St. Patrick's Day.

Pumpkins, ghosts, and black cats will haunt your version of Marti's charming Halloween wall hanging. Or, make rag doll witches and a not-so spooky Haunted House. And since Thanksgiving isn't complete without a stuffed turkey, make yours of scrap fabrics.

A string-quilted Celebration Vest is Marti's final tribute to fabric, scraps, and holiday pleasures. Her vest bears a message she wants every reader to take to heart: Celebrate.

Using novelty fabrics with your other scraps to create a mood is the focus of Holiday Fabrics. Table settings and four fabric wreath techniques are Marti's examples. Another way

to use fabric to suit the occasion is shown in A. Bear for All Seasons, which reveals the many personalities of Marti's favorite easy-to-make stuffed animal.

Celebrate Easter with A. Bear (in a bunny disguise) and his hare of a cousin. Stars and stripes in a scrappy wreath and a patriotic wall hanging are highlights of Independence Day.
