"Fiction lovers who come to this book with an open mind will find themselves challenged and entertained by a brilliant writer with a very fertile imagination."--Publishers Weekly (starred review) "When he turns to prose, this Pulitzer Prize-winning poet exhibits a surprisingly uncomplicated style."--Details James Tate seems both awed and bemused by small-town life in these forty-four stories full of legends, flights of fancy, tragedies, and small ruptures in ordinary existence. His narrators speak in an idiom that is odd and completely American. James Tate is the author of fourteen books of poetry and the recipient of numerous awards: fellowships from the NEA and Guggenheim foundations, the National Book Award, and the Pulitzer Prize.
