isbn:9780823099214

Create great animation easily with the help of this book. This entertaining, illustrated guide shows budding animators exactly how to create studio-level results without spending a fortune on software or special equipment. First there's detailed info on

choosing and using software tools. Then there's full step-by-step directions on all aspects of animation production; writing the script, creating characters and much more. Move over, Matt Groening - now there's Get Animated!
