isbn:9781557290489

These essays address related facets of the shifting and fluid process of negotiation that is the real nature of ethnic relations in China, past and present, and by extension in the rest of the world. The volume concerns itself both with the overarching identity, first cultural and then national, that we now call "Chinese" and with its constituent ethnicities, including both the majority, which we now call "Han," and various minority or peripheral identities.

作者介绍:

Brown Melissa, Assistant Professor of Anthropology at the University of Washington, she received her PhD from University of Washington in 1995.

目录: Foreword—vii
