isbn:9781593500870

It's had twenty-five years to cool off, but "Sins "is still as hot as ever "Sins "is a decadent treat oozing with dirt and gossip that would make anyone blush, but that's the fun of it. "Sins "is a super-glossy tale of passion and intrigue set in the world of haute-couture that starts during World War II and ends in the early '80s.
