In nature, every advantage increases an animal's chances of survival. A mammal's ability to blend in with its surroundings is a distinct advantage as both prey and predator.

"Hidden Fur" and the rest of the Creature Camouflage Coloring book series are a fun and creative way to either help these fascinating animals conceal themselves or creatively uncover them! Whether it's mammals or any of the other intriguing "hidden" animals in this series, your imagination is sure to run wild as you color wonderful patterns and discover the brilliance of nature.
