出版时间:2007-12-18

装帧:Paperback

isbn:9780393930757

This Norton Critical Edition of Stephen Crane's classic 1895 Civil War novel is again based on the first published edition, conservatively edited. The Fourth Edition offers a broadened and restructured "Backgrounds and Sources" section that illuminates the social and intellectual climate of the 1890s and includes thought-provoking material by Jay Martin, Charles J. LaRocca, and Perry Lentz on Crane's use of the Battle of Chancellorsville. "Criticism" includes an expanded introduction by Donald Pizer covering major critical approaches to the novel and fourteen assessments that reflect the revival critical interest in *The Red Badge of Courage* by, among others, R. W. Stallman, Charles C. Walcutt, John Fraser, Amy Kaplan, John E. Curran Jr., James B. Colvert, and Donald Pizer.

评论

通过写一个coward稀里糊涂成为战争英雄的过程，深度刻画了战争非人性的残酷和荒谬。是存在的荒诞，也是英雄主义的衰落。
