his first major retrospective collection contains over 200 of the great photographs that gave rise to Kertész' s fame as the father of candid photography. Helio gravure printing was chosen for it' s ability to reproduce the subtleties and warmth of the original works.

70年代的印刷排版就是赞

一些以前没见过的不那么有名的照片反倒更喜欢

柯特兹拍得太好了，太好了，我说不出话来了。太完美了，构图，光影，瞬间，趣味，全然完美。而且他拍一切，太可怕了，简直就是马太效应。

收录四个时期的照片，the Hungarian period, the French period, the American period and the International period.

Eyes of a child whose every look is the first look, which see the Emperor naked when he is clothed in lies.

严谨考究的杰作

安德烈.科特兹
