China by Numbers is a comprehensive guide to the figures that shape the world's largest nation and fastest-growing significant economy. It is a handy desktop reference for the most up-to-date data available on China's social and economic indicators. The 2009 edition is fully updated and revised. China by Numbers includes: 260 pages of in-depth information on China

Sources cited next to each figure

Historical numbers to provide context

Graphs illustrating key trends

Data on each of China's main industries

Detailed numbers on China's demographics

Clean, easy-to-use layout

Easily searchable index for all numbers
