出版时间:1995-03-20

装帧:Hardcover

isbn:9780395633168

In the first four years of this decade, Japanese exports rose 32%, the yen rose 27%, and Japanese employers created a net 3.2 million jobs. Though Japan is now the world's largest manufacturing economy, Fingelton argues that Americans are still underestimating the country's economic prowess. "... a crisp, well-written, well-executed alarm." --New York Times Book Review
