出版时间:1993-6

装帧:Paperback

isbn:9780945466130

After the fall of communism, and certainly after this wide-ranging demolition of Marxism by Austrian scholars, who can possibly defend Marxism? Plenty of people, many of them smart otherwise but uneducated in economics. This book is the antidote, covering the whole history of this nutty and dangerous system of thought

It begins by an alternatively hilarious and tragic introduction by the editor Yuri Maltsev. He describes in vivid detail life in the Soviet Union, which, he points out contrary to

myth, was indeed an attempt to realize Marx's vision. Of course the system moved away from the strict doctrine, lest everyone in the country be reduced to the most primitive possible economic conditions. He describes a society in which nothing works, ethics and morals collapse, and absurdities abound in every aspect of daily life. It is a priceless first-hand account.

Next come sweeping essays by David Gordon and Hans-Hermann Hoppe that get into the guts of the Marxian system and show where it went wrong from both a philosophical and economic perspective. Hoppe in particular here shows how Marx took classical liberal doctrine on the state and misapplied it in ways that contradicted all logic and experience.

Gary North provides a devastating look at Marx the man, while Ralph Raico zeros in on the Marxian doctrine of class. Finally, and as a triumphant finish, Rothbard offers a wholesale revision of the basis of Marxism. It was not economics, he says. It was the longing for a universal upheaval to overthrow all things we know about the world and replace it with a crazed fantasy based secular/religious longings. Rothbard finds all this in the unknown writings of Marx and his post-millennial predecessors in the history of ideas.

This book made its first appearance in 1992, and has been out of print all these years. It is fantastic to have it back and available in this very affordable edition.

书评

编者Maltsev自称：“在业已出版的学术著作中，本书堪称最反马克思的一部。”（p.3 1）（非学术著作中堪称最反马克思的，可能是那本《马克思与撒旦》了。）书名虽是《马克思安魂曲》，编者立意却不只为悼念逝者。Maltsev的序言谈马克思很少，谈社会主义失败极多，可见本书并非...
