The author of The Last Angry Man, The Hostage Heart and Holocaust has written a stunning roman a clef set entirely in Russia. Karpov s Brain is the story of Abram Levitch, a most unlikely hero, who out of a profound desire to be free seeks to emigrate to Israel where he will join his beloved wife. A man who seeks neither headlines nor fame becomes a figure of courage and the focus of international attention when the Soviet state persecutes and imprisons him.

The campaign to discredit and convict Levitch is headed by Andrei Karpov, a suave and vicious top agent in the KGB. He forces Dr. Irina Tashenko, a beautiful brain surgeon who had once been his lover, to collaborate in a scheme to implicate Levitch on espionage charges. But with the Levitch case almost sealed, Karpov begins to suffer severe epileptic seizures. To relieve them, Irina performs a rare brain operation that severs the connection between the two hemispheres of Karpov's brain, the "good" side and the "bad" side. Irina becomes guilty over her complicity in
