The Annual World Bank Conference on Development Economics (ABCDE) brings together the world's leading scholars and development practitioners for a lively debate on state-of-the-art thinking in development policy and the implications for the global economy. The 13th conference dealt with two important and controversial themes in development: globalization and inequality, with Daniel Cohen, Richard N. Cooper, Kevin H. O'Rourke, and Anthony J. Venables; and health and development, and Anne Case, Jean O. Lanjouw, Tomas Philipson and Rodrigo R. Soares, and Morten Rostrup. James D. Wolfensohn and Nicholas Stern also discuss the conference.
