## Review

"Bray makes his case quite admirably. The argument is tightly woven. The framework is consistently applied. The conclusions are illuminating." —H-Net Reviews

"[A] meticulously crafted piece of research....a highly stimulating and important book....It is a fine example of the integration of social science theories with China studies..." —The China Journal

"...this book is an important contribution to the literature, a leading example of scholarship on governmentality, and one that should inspire scholars to conduct further studies of the danwei and related institutions with spatial characteristics in urban China." —The China Review

## 作者介绍:

I commenced this post at Sydney in January 2005. Prior to Sydney I lectured in Chinese Politics at the East Asia Institute, University of Cambridge, UK (2000-2004) and have previously also taught at Monash, Melbourne and RMIT. My academic training has been primarily in the areas of political and social theory and Chinese language (Mandarin). My doctoral research was on the socialist workunit (danwei) system in China, particularly focussing on its role in the governance of urban China. A book based on this research was published in 2005 (details below). Over the years I have spent more than three years in China, variously at Shandong Teachers' University, Beijing Language Institute, Beijing University and the Chinese University of Politics and Law. My current research on community governance takes me to China at least once a year.

此君果然是Michael Dutton的学生

---

如果这是严肃著作的话，那么用文献的方式确实和我差不多啊嘿嘿...不过，还是有点浮光掠影，那种“微妙”的东西没出来...

---

好书啊，对于 " 单位 " 这一中国特色空间模式分析引据入微。

---

讲得比较清楚的单位历史，revolutionary spatial practice那章不错。

---

着重读了下直接讲Chinese governance under Maoism和 policies related to urban development的部分..大部分和soviet union的关系简单带过.  
danwei神马的咱就不用听他说了吧~

-----  
仔细看了前两章，浏览了一下后面几章，先记下做reference

-----  
It's a dissertation? I thought it was just some loosely organized reading notes.

-----  
the most interesting book I had for the summer TA course.  
单位的形成是传统墙文化的幽灵复现，是集体生活的刻凿需要，是经济“条块结构”的注定（国有单位享受比市政府更多的资金权力）也是斯大林monumentalism的影响

-----  
阅读指数7.5 时间消耗15小时

-----  
比较遗憾的是，全书就单位的讨论到改革时期没有触及必不可缺的政府机关、事业单位这些内容。

## 书评

“你是哪个单位的”，相信绝大多数城市人都遇见过这样的提问。“单位之问”并非没有道理，在过去的几十年里，单位一直是中国城市的基本组成部分，是城市发展和稳定的核心细胞。即使是市场起决定性作用的今天，它仍然是令人骄傲的身份象征，在城市的公共话语里，这代表了...
