装帧:Paperback

isbn:9780486406626

In this enormously influential book, published in 1845, the prototypical feminist writer of her day addressed a wide range of issues, from the Woman Question to prostitution and slavery, marriage and employment reform, and the European revolutionary movements of the 1840s. A thought-provoking challenge to contemporary assumptions of male privilege, *Woman in the Nineteenth Century* is today a classic of feminist literature.

书评

我一边看,一边在译. 我的英文较差,所以看得很慢.  
两天下来,只看一个NOTE\prepace,和内容部分的前二页. 看这个主要是为了写一个书评.  
我的天,不知道什么时候可以看完.
