Artists, craftspeople, and anyone wanting to add a distinctive Celtic touch to almost any graphic project will be delighted with the illustrations in this handy CD-ROM and

book collection. Over 110 dazzling, permission-free designs, in a broad range of sizes and formats, feature eye-catching motifs typical of traditional Celtic art. Here are four-footed beasts with wings, religious figures with halos, serpentine scrolls, bizarre creatures that form intricately woven motifs, highly stylized designs surrounding letters of the alphabet, and artwork for frames, borders, and other graphic elements. Numbered for easy reference, the unusual images are ideal for either computer or traditional cut-and-paste use and can be used to design stationery, menus, catalog and magazine pages, and a host of other commercial and artistic undertakings.
