Nelson Gregory has everything a man could want--success, wealth, beautiful women--everything except the hope of a future. So there s no way he wants to get seriously involved.

She faces risks daily

But Dr. Portia Bailey, the emergency room physician who sees Nelson following an accident, doesn t agree. Her uncanny intuition tells her Nelson s fears are groundless.

Can they beat the odds?

That same intuition tells her Nelson might be more than just another E.R. case to her--if she can trust herself...

If he can trust her.
