DIRECTIONS

HOOK-A-FISH

OBJECT:

To guess the secret word represented by the numbered blank spaces before you hook the fish. He is hooked if all 11 parts of his body are filled in before you complete the word. If you need help, use your Yes & Know~ pen to rub the space

above the dotted line to reveal a clue.

HOW TO PLAY:

1. Every letter in the alphabet is printed below the FISH. Guess any letter. With your Yes & Know~ pen, fill in the box under it. If the letter you guess is in the secret word, a number (or numbers) will appear in the box. With your Yes & Knowe pen, print that letter above the blank space (or spaces) above that number (or numbers). After several letters are found, the word will begin to take shape.
2. If the letter you guess is not in the word, No will appear. For each No, you must fill in one of the 11 parts of the FISH with your Yes & Know~ pen. The parts are: head, 1 eye, 3 body parts, 6 fins.
3. If all 11 parts of the FISH are filled in before you complete the word, you lose. If you complete the word first, you win!
