In Poppy Rice s second venture, the smart, outspoken FBI agent s vacation is rudely interrupted by a sinister murder FBI agent Poppy Rice is, rather unwillingly, taking time off to recuperate from injuries sustained on the job. A few days into her ill-conceived vacation on Block Island with Joe, her sometime-lover and soul mate, she happens upon a corpse dumped in the middle of the road. The body of the victim, a young girl from a summer camp for overweight teenagers, is painfully contorted, her face frozen in a death scream. There are no visible wounds and the cause of death is a mystery. Although Poppy is no stranger to gruesome scenes, she is so disturbed by the murder that she can t help but defy her orders to rest. Then, just as she begins poking around, another body is found in the same condition as the first; this time, the pathologist reveals another similarity-the eardrums of both girls were ruptured. Now Poppy must get to the killer before the killer gets to any more girls. With no clue as to the murderer s method or motive, she s going to need all the help she can get. But in the close-knit, tight-lipped Block Island community, secrets are kept-even deadly ones.
