Written by a team of experts and specialist contributors, this comprehensive guide has proved to be an invaluable resource for professional designers and service engineers. Each chapter is written by a leading author, including Don Aldous, Nick Beer, John

Borwick, Dave Berriman, John Linsley Hood, Geoff Lewis and John Watkinson, which provides as wide a perspective as possible on high-quality sound reproduction as well as a wealth of expertise. The third edition includes new chapters on servicing, Nicam stereo and digital satellite radio. For the first time in paperback, this revised edition features a completely new chapter on the most recent digital developments, CD-R/RW, HDCD, Internet audio, MP3 players and DAM-CD. Ian Sinclair has written over 140 books on aspects of electronics and computing and has been a regular contributor to the electronics and computing press. A comprehensive - and comprehensible - guide to audio electronics, it enables enthusiasts to understand and modify their Hi-fi equipment. Electronics and design principles make this book a handy reference tool for anyone involved in audio design, manufacture, installation and use.
