著者:Georg Wilhelm Fredrich Hegel

出版者:Cambridge University Press

出版时间:1999-8-13

装帧:Paperback

isbn:9780521459754

This major addition to the series of Cambridge Texts in the History of Political Thought seeks to give students with no specialist knowledge access to both the practical and the metaphysical aspects of Hegel's political thought. The ethical and metaphysical texts in this collection both illuminate and contrast with those political and historical texts in which Hegel draws important conclusions about the modern world from remarkable comparative analyses of recent developments in England, France and Germany. The translator of these texts, H. B. Nisbet, was responsible for the acclaimed rendition of Hegel's *Philosophy of Right* already published in this series, and Lawrence Dickey's lucid editorial commentary introduces this distinctive corpus of political writing by one of the very greatest thinkers in the European tradition. A full chronology, explanatory annotation, glossary and bibliography are appended to aid the student reader.
