Tala ap Griffin was both princess and priestess to the people of Arden Wood. And Lord Edon Halfdansson had succumbed to her mysterious charms. But was her power simple woodland sorcery, or the force of eternal love? His liege had decreed that Edon, Wolf of Warwick, return to his lair and take to wife the bewitching Tala, uniting their warring fiefdoms in peace though a marriage bed shared with the

fiery princess could prove nothing  
more than a battlefield!
