This title includes the Cases You Need to Learn the Essential of Gynecologic Surgery.

"Case Files: Gynecologic Surgery" provides 40 clinical cases to illustrate evidence-based practice in the gynecologic surgery patient. Each case includes open-ended questions, extended discussion, Practice Pearls, a 'Controversy' discussion, comprehension questions, and references to the most current literature with a brief critique of each article. With this unique learning system you'll learn how to become a better clinician in the context of real patients and the latest evidence-based medicine. It features 40 high-yield clinical situations tailored for management and understanding of disease (pathophysiology) in the gynecologic surgery patient. Clear and easy-to-follow case-based format helps residents and fellows develop clinical thinking skills. Based on current journal articles and landmark studies, with an accompanying brief critique 'Practical Pearls' give evidence-based recommendations for patient management 'Controversy' feature discusses current controversies and different views related to each case. Multiple-choice comprehension questions accompany each case. Approximately 25 original drawings and clinical images enhance the text. It presents high-yield high-risk gynecologic surgery cases in an interactive and memorable format to help residents and fellows learn in the context of real patients. Proven learning system improves exam scores.
