The secrets of plants that cling, grip, and climb, from the inventor of the vertical garden. Patrick Blanc, an artist with a green thumb, has created dozens of his admired botanical tapestries in public and private spaces around the world, including the

Marithé & François Girbaud boutique in Manhattan; the Jean Nouvel-designed Quai Branly Museum in Paris; the aquarium in Genoa; the Siam Paragon mall in Bangkok; and the 21st Century Museum of Contemporary Art in Kanazawa, Japan. In this lush, oversized, all-color book, he explains how to create plant walls using more than one thousand plants, drawing on his observation of natural milieus, his technique of growing on vertical surfaces, his savoir faire, and his passion for plants. 300 color
