Alexander's Bridge is the first novel by American author Willa Cather. First published in 1912, it was re-released with an author's preface in 1922. It also ran as a serial in McClure's, giving Cather some free time from her work for that magazine.

Bartley Alexander is a construction engineer and world-renowned builder of bridges going through what's known today (but not in 1912) as a mid-life crisis. Although married to his wife Winifred, Bartley resumes his acquaintance with a former lover, Hilda Burgoyne, in London. The affair proves to gnaw at Bartley's sense of propriety and honor.

评论

两个女人代表divided self的两面，代表了东部西部。 bridge 象征，一个人两面之间的桥。 中年危机。 英文，所以读得比较糊涂。
