出版者:Penguin Books Ltd

出版时间:2005-5-6

装帧:Paperback

isbn:9780141022277

The founder of modern psychiatry, Sigmund Freud powerfully believed that conscious decisions are underpinned by a guiding subconscious that can be understood only by analysis. Taken from one of his most important works, "The Psychopathology of Everyday Life", published in a new translation in Penguin Modern Classics, this volume explores why we forget, how we remember and why our memories can sometimes prove deceptive.
