The sixth volume in a multi-volume series aiming to provide both expert analysis and the documentary basis for an informed understanding of Hong Kong's transition as a free society and capitalist economy toward socialist Chinese sovereignty under the "one country, two systems" formula. The series explores the crucial dimensions of Hong Kong's current developments in this transitional process, as well as their global implications. This volume examines the nature, long-term impact and controversial issues of the Hong Kong-Guangdong link.
