Taken prisoner by the Jotnar Alliance, Morgan Fontinara, crown prince of Bellariss, must escape the slave world of his incarceration to lead the rebellion he planned. He didn't count on a sexy psychic warden, nor did he plan to reach out to her in a moment of weakness, bonding himself to her mind, body and soul. Ariana Zoltan has no choice but to work with her Jotnar overlords, but does everything she can to ease the slaves' suffering. If that means using her powers to spot potential runners, so be it. But Morgan's psychic pleas force her to respond, wrapping her future and soul with his. Can trust be earned between such disparate lovers? Morgan and Ariana must answer this question before they can turn their attention to defeating the Jotnar and grabbing for a life together.
